Dear Seeker of the Soul's Wisdom,

In the months of February and March 2026, I invite you to step into a sacred space of transformation—a journey beyond the ordinary mind and into the deeper wisdom of your soul. As a **Certified Hypnotist** trained through the College of Clarity under Dominique Bertocini, I am now integrating this work with my life long studies in integrative health, shamanic dreaming, sacred symbolism, and BQH Past Life Regression (Beyond Quantum Healing). You can learn more about my life long journey of initiation @ www.desireedemars.com

I am offering a 6-SESSION HYPNOSIS JOURNEY designed to cultivate clarity, release limiting patterns and beliefs, and expand your sense of possibility!

This journey includes:

- Demystifying Hypnosis and Setting Intention
- Breakthrough Activation
- Release and Reframe
- High Road / Low Road Future Visioning
- Integration and Inspired Action
- A Custom Designed Quantum Leap Session

February has astrologically arrived as a threshold moment, an opportunity to release outdated structures and consciously step into a new vision for your life. Rather than seeing love as something external, we can choose to experience it as an intelligent force that awakens us to remember who we truly are. This offering reflects the evolution of my own path, blending structured professional hypnosis with intuitive and spiritual depth to create a powerful container for you that is grounded and transformational.

This experience is perfect for you if you are:

- Navigating a life transition
- Ready to release old stories
- Seeking deeper clarity or healing
- Curious about your soul's deeper narrative

I invite you to take the first step and schedule a complimentary Discovery Call with me!

Now is the perfect time to align with the collective shift beyond the veil of the known, into the Great Mystery that holds the key to the return of your own creative power.

Let us walk together into the dream and awaken the truth that has always lived within you.

In gratitude, Aho! Desiree DeMars
